

The Polish Heritage Songbook (Slavic Edition)

This unique collection of 80 songs is a treasury of nostalgia, capturing echoes of a long struggle for freedom carried out by generations of Polish men and women. The songs are accompanied by illustrations from one of Poland's best artists of the genre (Szymon Kobyliniski), providing a touch of joy, humour and pride as best suits the occasion. A distinguished musicologist has written the annotations for the songs, giving a wealth of information about the composers and the librettists, as well as the song histories. These texts are in English, the songs in Polish.
