

The Art of Surfcasting with Lures

Here is a book that will be considered the ultimate guide to surf fishing with lures for years to come. The first half of the book is loaded with information on gear, structure, tide, winds and moon periods. Additional chapters cover baitfish profiles, fishing strategies and what goes into a surfcasters decision making process when selecting a lure and presenting it to structure. This book leaves no stone unturned. In more detail than ever before found in one publication, veteran surfcaster Zeno Hromin covers every type of situation surfcasters might find themselves in and presents the best strategies to succeed. In the second half of the book each of todays most popular lures is discussed in detail with tips on colors, sizes, retrieves and on modifications to increase their effectiveness. Toward the end of the book you will find chapters on conservation and fishing with kids, two things the author holds in high regard. All throughout the book there are personal stories of Zenos experiences in the surf with colorful tales of success and failure all which will hopefully enlighten, entertain and educate you. If you ever wanted to learn how to use lures with consistent success or if you are a veteran angler who is looking to gain an edge on your fishing buddies, this book will provide you with information to do both. A revolutionary book, called a new surfcasters bible by some of the legendary surfcasters on the east coast, the Art of Surf Fishing with Lures is the ultimate reference guide for any surfcaster.
